

# PETONE LIBRARY, HERITAGE & COMMUNITY CENTRE

We're exploring options for the Petone Library and Heritage Centre.

The current building needs repairs and Hutt City Council's Annual Plan is proposing \$1.5m be spent on this in 2021-2022. Meanwhile, we're keen to take this opportunity to step back and consider the bigger picture. We want to make sure the facility meets the current and future needs of the Petone community.

We're considering the following options:

1. Repairing the existing building as planned
2. Repairing the existing building with some alterations and upgrades
3. Building a new, bigger multi-purpose facility which includes the library and heritage centre, other community spaces and housing
4. Building a new, bigger multi-purpose facility which includes the library and heritage centre, other community spaces (without housing)
5. Building new, as in Option 3, with housing, and additionally a new civic precinct which better connects the building to Jackson Street

We're keen to hear your views.
